

# Maldon Streetscape Revitalisation Project

Project update – Friday 1 April 2022

This week works began in Main Street, Maldon to resurface the asphalt footpaths.

The process involves removing the old patched and damaged asphalt and laying fresh new asphalt. While works are underway, footpaths will still be accessible by pedestrians.

Works have occurred on footpaths located from Templeton Street to Old Bank Corner, on the Maldon Newsagency side of the street.

Next week, works will take place from the Maldon Hotel, through to the Wheel and Loom.

Renovation works on the historic stone culverts is progressing, and we have received some positive feedback from local business owners, residents and visitors about how good the revitalised stone drains look.

Next week will also see the start of works to replace existing Old Bank Corner concrete crossovers with timber along High and Main Streets and repair the stone drains.

The process of restoring shopfronts in Maldon is continuing, with works progressively being implemented by independent contractors on behalf of building owners.

Works as part of the Shopfront Improvement Program include re-painting and re-building verandas, and aim to preserve the heritage values of the town for now and into the future.

Thank you to the community of Maldon for your support, patience and cooperation while works are progressed on the project.

## Background on Maldon Streetscape Revitalisation Project

Works are progressing in Maldon on the [Maldon Streetscape Revitalisation Project](#) – a long-term initiative to rejuvenate the historic town.

The project has three main areas:

- putting powerlines underground
- restoring shopfronts
- upgrading public spaces such as footpaths, road surfaces, drains, bins and seating.
